Subject: Patrick's Bayou

Sam,

Hope you are doing well. Last we spoke, I had mentioned our interest in Patrick's Bayou. I have briefed my first assistant and before engaging further formally, the County Attorney Vince Ryan would like to have a high-level meeting with Dr. Armendariz to discuss the progress at the pits and next steps with Patrick Bayou superfund site. I suggested Nov. 9 because Dr. Armendariz is coming down to Houston to speak at this luncheon I invited him to. I have asked Al if there is time to talk and nothing is solidified yet but I wanted to give you a heads-up.

I also will contact Phil Allen, the RPM, for more information. Charles gave me the fact sheet which was helpful. One question I had is that the fact sheet revised in October available on the web does not specify dioxins and I know those have been identified in that area along with mercury, pcbs and so forth.

Thanks for your help and look forward to working with you.
